

# Smart Grids and Maui's Energy Future

What is a Smart Grid?

How can a Smart Grid help save money for residents and businesses?

How can Smart Grids lead to increased sustainable energy?

June 30, 2011 5:30-7:30  
Pa'ina Building  
Maui College

**Dr. James Griffin** of HNEI will answer these questions and discuss new pilot projects taking place on Maui and how residents and businesses can get involved in these initiatives.

**Michael Chang** of Hawaii Energy will also be there to provide information on energy rebate opportunities for Maui businesses.

*Dr. James "Jay" Griffin* is a researcher at the Hawaii Natural Energy Institute at UH Manoa. His research specializes in integration of renewable energy sources into energy systems and analysis of energy policy.

Funded by the Pacific Center for Advanced Technology Training (PCATT)

Free admission for Maui businesses
