

GREEN INTERNSHIPS

SPRING 2018: INTERNSHIPS FOR A GREENER WORKFORCE

Internships focus on Resource Use Efficiency projects and Lean & Green strategies for manufacturing

WHAT:

- > PAID Internships (est. \$500)
- > 75-hours
- > Open to UHMC students, high school students, and community members
- > UHMC students may earn ONE credit

Each intern will complete a supervised project with a Maui manufacturing company.

Learn skills including how to improve process efficiency, use data logging tools, analyze data, and prepare technical reports.

WHEN: Training Workshop - December 2017 (2 days)
Internship: January – April 2018
Applications due **November 17, 2017**

WHO: Open to anyone interested in obtaining sustainability, resource use and energy efficiency experience and hands-on training with local employers.
